Please post the Nursing Student Clinical Assignment daily in a mutually agreed upon location on your unit. Be specific on what patients the student will be caring for and what nursing care they will be delivering.

If your students will not be here on a previously scheduled day, or if they will be on break for a week, please let the unit know in advance.

We are glad you are with us for this experience, and hope it will be a positive experience for our patients and your students.

If you need anything further, please do not hesitate to contact me.
