Frequently Asked Questions (FAQs)

What is Ambra?

Ambra is an image sharing platform utilized by The Valley Hospital which allows us to share patient images electronically in a safe manner.

How does Ambra work?

Rather than create a CD, Ambra allows you to view and download your diagnostic images online. You may save the images to your computer for future use.

Can I share my images with my doctor?

Yes. You can download the images to your computer and send images to your doctor of choice.

Can you send my images to my doctor or another Hospital?

Yes, we can share your diagnostic images with your doctor or another hospital. All we need is an email address to send the images to.

How long are my images available?

Your images will be available to you for 90 days. After the 90 days you can re-request your images by following the same process as described above.

Can I get my images on my cell phone?

Yes. You can use a smart phone to view your images as well as download the Ambra app directly to your phone.

Is someone available to help me if I have trouble getting my images?

Yes, Ambra has 24/7 support. Please call (888) 315-0790 for support.
