Making the Most of Your Child's IEP

**A WORKSHOP FOR PARENTS
AND PROFESSIONALS**

CONFERENCE PRESENTER

Catherine Whitcher, M.Ed is a special needs sibling to an awesome brother who has Down syndrome. She decided she was going to change the world as a Special Education teacher and went ALL IN with Bachelors & Masters degrees + multiple certifications. After just a few years of being in the classroom, she was in high demand by parents and teachers as a speaker and consultant for building IEPs that worked in the Real World! For the past 25 years, she has been working nationwide developing what we now know

as the Master IEP Coach® Methods. Catherine holds nothing back as she shows IEPs teams, including parents, teachers, therapists, and admins, how she has changed 1000's of IEPs with collaborative strategies. She has spoken on stages at disability conferences throughout the United States and has delivered her programs virtually around the world, as far as Ghana. When we work together, Catherine is confident, we can help prepare every child for further education, employment, and independent living.

This is a free conference, but registration is required.
