

In alliance with

**Cleveland Clinic**

**Heart, Vascular and Thoracic Institute**

The Valley Health System is actively seeking to hire forward-thinking board-certified/board-eligible critical care physicians for its rapidly expanding Heart and Vascular Institute. These specialists will work with an extraordinary multi-disciplinary team to further the Health System's vision to develop and maintain programs that are recognized for delivering high quality care across a broad service line. The Heart and Vascular Institute has a reputation for remaining ahead of the curve in adopting evidence-based, clinically relevant procedures and technologies that meet the needs of the broad community that we serve. Distinguished by its culture of excellence and its talented medical staff, Valley has a long tradition of outstanding, patient-centered care. To meet the growing needs of our community, Valley will open a new, state-of-the-art hospital in 2023 in Paramus, N.J.

Valley's Heart and Vascular Institute is an alliance member of the Cleveland Clinic's Heart, Vascular and Thoracic Institute since 2015. The Cleveland Clinic has been ranked #1 in the nation for heart care since 1995 by the U.S. News & World Report. Valley offers unique clinical programs for our patients, as well as extensive educational and research opportunities for its providers

The practice is comprised of both Physicians and Advanced Practice Providers. APP staffing will be 24x7. Physicians will cover cardiac critical care and the step-down unit at The Valley Hospital. Overnight call by MDs is taken from home with the expectation of in-person presence within 30 minutes as the need arises. Duties include the performance of procedures and supervision of APPs. Procedural expertise is required. Cardiac surgery experience is a plus. The ideal candidate will be someone who is hard working, flexible, team player with excellent communication, critical thinking, analytical, and relationship building skills who enjoys working with a dynamic, multidisciplinary team in a community-based hospital setting. This is a great opportunity for a physician to gain valuable work experience while enjoying the support of colleagues.

Candidates must have an MD or DO degree and be board-certified/board-eligible in Critical Care Medicine. A valid New Jersey state license, DEA, and CDS is a must.

We offer a supportive, collegial environment, and a generous income and benefits package.

Bergen County is one of the most desirable counties in the United States, with excellent schools, numerous recreational and cultural activities and proximity to NYC. This is an extraordinary opportunity for a compassionate, dedicated and forward-thinking critical care physician to grow and excel, as part of a premier cardiovascular service.

Applicants should submit a letter of interest and a CV to:

Gerald Sotsky, MD

Chair, Cardiovascular Services
